Mr. Charles M. Lea

Resolution on the death of Mr. Charles M. Lea

The Trustees of the Trudeau Sanatorium desire to record their sentiments of sorrow at the death and respect for the memory of our late friend and colleague, Mr. Charles M. Lea, of Philadelphia. His lifelong friendship with Doctor Trudeau was known to all of us. His devotion to the Sanatorium and faithfulness to its charitable objects were evinced by the fact that he rarely missed a meeting of the Board during the forty-three years, being one of the original Trustees and the last survivor of that group. We also honor him for his faithful record as Trustee of the Free Bed Fund and for the generous assistance rendered to scores of unfortunates. His death in the fulness of years removes another of those whose personal sympathy and understanding have made possible the succor and healing of thousands afflicted with tuberculosis. We extend our sympathy and express our genuine sadness to the family of our deceased colleague, whose memory will be cherished by all who knew him.

THE TRUDEAU SANATORIUM
and
THE EDWARD L. TRUDEAU FOUNDATION

The different departments included under the above heading are as follows:

1. *The Trudeau Sanatorium* for the treatment of favorable types of pulmonary tuberculosis and for patients of limited means. The capacity is 180 beds.

2. *The D. Ogden Mills Training School for Nurses*, established in 1912 for the training of young women who have arrested tuberculosis.

3. *The Edward L. Trudeau Foundation*, an endowment fund in memory of Doctor Trudeau, established in 1916, for the support of research and teaching in tuberculosis.

a. *The Trudeau School of Tuberculosis* gives a six weeks' postgraduate course covering the modern diagnosis and treatment of tuberculosis.

b. A system of *fellowships* for study and research in the sanatorium and laboratories, which provide support for young physicians and scientists while undergoing treatment.

c. *The Research and Clinical Laboratory*, containing facilities for the study of bacteriology, chemistry and pathology. It includes a large medical library.

d. A department for *statistics* and for recording annual reports of former patients.

e. *The Saranac Laboratory for the Study of Tuberculosis* in the village of Saranac Lake, formerly the private research laboratory of Doctor Trudeau, and now the headquarters of the Trudeau School and of pathological study.

Annexed to the Saranac Laboratory is the John Black Room and Library, which serves the village physicians and where lectures are given.

REPORT OF THE PRESIDENT

This, the forty-fourth report of the Sanatorium, marks the beginning of a new administration, the third since the founding of the institution.

Dr. Trudeau was the inspiration and guiding spirit during all of the early years and lived to see the Sanatorium which he loved become the model of such institutions throughout the world.

Dr. James developed the Sanatorium in accordance with the ideals of its founder and was particularly successful in placing its affairs upon a firm financial basis by securing very material support for the endowment and the development of the teaching and scientific work, as well as the extension of the facilities for the care of patients.

Their successor as President of the Sanatorium is embarrassed by the necessity of following after those two incomparable leaders of men. Many years of intimate personal association with them have, however, enabled him to appreciate in some measure their spirit and their ideals. This fact, combined with the recognition of the truly remarkable condition in which he finds all of the affairs of the Sanatorium, constitutes a challenge to extraordinary effort.

Our friends and supporters may therefore be assured that every possible endeavor will be made to carry on the institution in a manner worthy of our heritage.

With this great responsibility comes a great opportunity which can only be successfully grasped if all who have given such loyal support in the past will continue to uphold the hands of those charged with the administration of the Sanatorium.

I would that it were possible to pass on the first impression gained upon studying the Sanatorium anew under the influence of recently acquired personal responsibility. Even though reasonably familiar with its affairs for many years as a member of the Board, one felt that only the more salient features had previously been glimpsed and that true appreciation waited upon close study.

Perhaps the outstanding impressions were the essential soundness of the institution and the spirit in which it is conducted.

SOUNDNESS

Physical Care of Patients. The patients are extraordinarily well cared for, with comfort without luxury. The infirmaries provide for the segregation of patients requiring bed care with all needed medical and nursing care. The cottage system allows congenial personal association in small groups for the ambulatory patients. The main central building provides lounging rooms and verandas for social gatherings and the dining room is delightfully pleasant and the food excellent. The buildings, the grounds and the surrounding mountain setting produce an effect of real beauty with a consequent most favorable psychological effect upon the patients.

The Moderate Cost. The moderate cost, far below the actual expense, is well adapted to the circumstances of the self-supporting class of patients for which the institution was designed and through the Free Bed Fund this cost is very materially diminished or entirely eliminated for a very considerable percentage of patients.

Medical Care. The medical care and supervision is of a high order. It is modern and progressive but always based upon sound principles.

Scientific Research. The scientific work in the clinical, x-ray and experimental laboratories is an outstanding feature of the institution and affords the impetus for the acquisition of new knowledge but always with the regard to its practical application to clinical problems. In both the Trudeau and Saranac Laboratories many important original contributions to medical science have been made, but it is especially noteworthy that no false or misleading theories have been developed and the boast of Dr. Trudeau that no published researches from these laboratories have ever been refuted still holds true.

Educational Facilities. Teaching has become an essential activity of the Sanatorium. The patients are thoroughly educated in sound principles of hygiene. The Mills School for Nurses has developed into a training center of the first rank and has been uniquely valuable in that it affords training for girls who have had tuberculosis and consequently are not eligible for other schools and also training in the care of tuberculosis, a much neglected field.

The Trudeau School gives regular courses in Tuberculosis to a considerable group of graduate physicians each year and in addition many physicians from all over the country visit the Sanatorium every

year for shorter periods of time and small groups of under-graduate medical students attend for several weeks each summer.

Saranac Lake became the Mecca of all students of tuberculosis as the result of Dr. Trudeau's influence. The Foundation established in his memory has made it possible to organize this educational influence, so that the Sanatorium has become a small university in this especial branch of medicine.

Efficient and Sympathetic Administration. The administrative details are admirably executed and with a sympathetic human interest in the welfare of the individual patients which is unusual in institutions.

Sound Financial Basis. The financial situation is unusually sound. Due to the foresight of Dr. Trudeau and the devoted efforts of Dr. James a very considerable endowment has been obtained for both the Sanatorium itself and for the scientific work. This supplies an income sufficient to insure the stability of the institution but leaves a sufficient deficit for necessary running expenses and for expansion which must be met each year from outside contributions. This deficit is a factor in the vitality and sound growth of the institution and keeps the essential philanthropic purpose of the work ever in evidence. The policy of the Trustees has always been to sanction no building additions or new activities until the necessary funds are in hand. Each year finds a need for some of these.

This cursory review, therefore, discovers the affairs of the Sanatorium to be upon a sound basis.

SPIRIT

The second outstanding impression gained from a close study of the Trudeau Sanatorium is the extraordinary spirit which permeates the institution. It breathes the wonderful spirit of Dr. Trudeau himself.

The devotion and unstinted self-giving to the interests of the Sanatorium on the part of the personnel are almost if not quite unique. This spirit is not only exemplified by those in positions of responsible direction, such as Dr. Baldwin, Dr. Brown and Mr. Armstrong, but is carried out all along the line of service, whether it be professional or lay, responsible or subordinate.

This, I believe, is the real strength of the Trudeau Sanatorium. An idealistic spirit of self-sacrificing service, intangible, inspiring, imperishable.

The new administration therefore confidently presents its report to our friends, old and new. We need your continued interest and support during our stewardship of the affairs and ideals of this great institution.

The details of our work during the past year, as well as of our needs for the future, are contained in the accompanying reports of the Chairman of the Executive Committee and of the Medical Department. They are deserving of careful study.

JAMES ALEXANDER MILLER

President

ANNUAL REPORT OF THE CHAIRMAN OF THE
EXECUTIVE COMMITTEE AND VICE-PRESIDENT
OF THE TRUDEAU SANATORIUM

AT THE ANNUAL MEETING, NOVEMBER 12, 1928

THE forty-fourth anniversary of the Sanatorium stands out in relation to the past as a new age. Nearly all the present members of the Board of Trustees will view the institution from comparatively recent knowledge. Death has finally removed the last original member, in the person of Mr. Charles M. Lea, beloved generous friend and devoted to the purpose and life work of Doctor Trudeau. Elsewhere in this report will be found a tribute to his memory.

The almost simultaneous death of another benefactor of the Sanatorium, Mr. Charles H. Ludington of Philadelphia, takes another friend of the tuberculous sick who will be keenly missed. His interests were as varied as his gifts were liberal and the Ludington Infirmary will stand as a memorial to him as well as to his wife.

Our stewardship has broadened still further during the past year. The number of patients treated remains at the maximum of the room available. The waiting list is not lessened and the pleas for financial aid for the unfortunates who have special claims for our interest are increasing. It is clear that the widespread demand for diagnosis is resulting in the disclosure of hitherto unsuspected cases, though often not in the most favorable stage for treatment. Hence the constant demand for the admission of infirmary patients. Exceptions are occasionally made when such beds are vacant, though it involves difficulty for those already in the institution who need care in bed and who should be removed from a cottage.

The total number of patients treated in 1927-28 was 492, of whom 326 were discharged. The exceptional number of nurses (24), physicians (27) and teachers (17) under treatment may be mentioned as showing their need of Trudeau advantages.

Maintenance. The end of the year finds us with an increased *per capita* cost over the preceding one. Various factors have contributed to this. On the one hand there was a slightly increased raw food cost,

which was \$0.2718 per meal, and a lower patient population, 181 against 188 in 1926-27. The cost of nursing increased to \$8.40 from \$8.33 per week. The inauguration of group insurance hereafter mentioned was still another factor. The total weekly *per capita* cost was \$24.39 compared with \$24.08 last year.

Employed Patients. The list of employed patients continues long, there being doubtless more than in any other institution. A round hundred were able to earn nearly \$27,000, realizing in this way their desire to remain longer and have part-time work. Much voluntary work is also done by patients.

Donations. The gifts to the General Fund amounted to \$31,875.25, an excellent showing in response to our appeal for an increased amount for necessary improvements. Gifts of \$16,066.85 were also made for special purposes. The following bequests were paid:

Elizabeth Dorsey, \$1900.00 for the Endowment Fund.

Milton Klein, \$1,000.00 for the Free Bed Fund.

Nina Lea, \$10,000.00 for Free Bed Fund Endowment.

Notices of the following legacies have been received:

Augusta Krakow, amount not specified.

Engartha L. Phelps, amount not specified.

Mrs. Loraine W. Mellon, \$10,000 for Mellon Library Endowment.

Ely Rosenberg, \$1,000.

Charles S. Horton, \$500.

Myron H. Downs, contingent legacy.

Endowment Funds. Additions during the past year amounted to \$12,150, and the Free Bed Endowment, \$21,000. Mr. Albert G. Milbank gave \$1,000 to the Endowment Fund as a memorial to his mother, Georgianna G. Milbank.

Free Bed, Memorial, and Nominated Bed Funds. A steady increase in the demand for assistance is shown by the past year's expenditure from these funds, which reached \$13,792.92, considerably in excess of the income. Forty-two patients were cared for from 1 to 336 days on the Free Bed Fund, and 17 on the Memorial and Nominated Bed Funds for periods of 14 to 336 days. This indicates that more than 18 per cent of the patients were aided. In some instances, interested

friends of the institution assumed the entire cost of individual cases.

The Alumni Free Bed Fund amounted to \$747.

Donations and interest received were \$13,252.73, leaving a deficit of \$540.19 to be paid from the General Fund.

The need for additional contributions is indicated by the above report. In no way is the Sanatorium performing a greater good than through the assistance given to self-supporting patients who cannot meet all their expenses.

Employees Group Life and Disability Insurance. The Executive Committee considered offers to insure our employees on the participating plan and without physical examination. The proposition was especially attractive to former patients who have to pay heavy premium charges if able to obtain insurance at all. The offer of the Metropolitan Life Insurance Company was at length accepted, whereby all employees are entitled to \$500 insurance after six months service and to \$1000 after two years. To both classes is given the added privilege of double these amounts if desired by the employees. There are 142 employees insured at present, who pay the rate of 60 cents per month per \$1000. The total insurance is \$132,000, and additional insurance is carried by 107 employees to the amount of \$99,500. The group insurance plan should result in more stability in employment.

Construction and Improvements. The policy of making our repairs of more permanent character has been followed where possible. During the summer several new roofs were laid with asbestos or iron instead of the old wooden shingles. New electric wiring is also made safer and plumbing of better quality is installed when these replacements are needed. The following were the principal improvements completed during the year:

Administration Building:

Final work on parlor and dining room extension	\$4,273.89
New furnishings	3,819.69

Medical Pavilion:

New asbestos roof, heating boiler, doors, etc.	4,017.44
--	----------

Service Building:

New ice machine	2,303.65
---------------------------	----------

Laundry:

Steam pumps	995.22
-----------------------	--------

Hoffman Cottage:

Asbestos slate roof, plumbing, etc.	768.98
---	--------

Twelve Cottages:

New plumbing, screens, and alterations	4,017.44
--	----------

The total cost of this work was \$20,736.49, and new equipment cost \$7,574.53, of which special gifts provided \$7,000. We are especially grateful to Mr. Charles J. Livingood, president of the Charles J. Emery Estate, for a grant of \$5,000 toward the alterations of the Medical Pavilion, which was originally the gift of Mrs. Emery.

The addition to capital investment including buildings under construction and improvements reached the total of \$51,983.43.

The Walter B. James Memorial Staff Building. It is especially fitting that a new staff building should be named for our late president. The main object of Dr. James' interest in his last year was to obtain a building suitable to house physicians and students. Mrs. James has now made this possible and the building is well along in its construction. It is a brick veneered, two-story and basement structure, and will house fifteen men. The staff greatly appreciates the kind thought and generosity of Mrs. James. The architects are Scopes and Feustmann, and the design is very well adapted to the purpose.

The Lorna Valentine Mallinson Memorial Cottage. This is the gift of Mr. and Mrs. Hiram R. Mallinson of New York in memory of their daughter. Through their interest in Dr. Petroff's work in the laboratory, they give this cottage primarily for the use of the married members of the laboratory staff. The structure will be of stone and stucco, of artistic appearance, and will contain two apartments. It was planned by Scopes and Feustmann, architects, was started late in the summer, and is being built by our own superintendent of construction, Mr. Joseph Hayes. This generous gift will truly fill a long felt want.

Water Tank and Pumps. The need of a greater supply of water for fire protection and domestic purposes has been recognized for several years. An appeal for sufficient funds this year was followed by a sufficiently liberal response to meet the major part of the expense. The original estimate of \$10,000 will be exceeded owing to the Fire Underwriters' requirements of duplicate pumps, heating boilers and duplicate water mains of large size with new connections, etc. Contracts for the pumps and a 100,000-gallon tank have been let and the

foundation made ready on the mountain. This required a new road to reach it and considerable rock blasting in the trenching. We are fortunate in having the services of Mr. Matthews Davis and Mr. John Sweeney, both engineers of large experience and residing in the village. Besides contributing half of his fee, Mr. Sweeney has placed his machinery at our disposal without rental charge. The Town of Harrietstown, through the courtesy of Mr. A. I. Vosburgh, supervisor, and the Village Water Board of Saranac Lake likewise have loaned their rock drilling machinery without charge.

Medical Department. Fewer patients were treated last year than in the previous one. The total was 492, 20 less than the 1926-27 record. Of these 326 were discharged. There was less crowding, and the 515 in the former year must be considered the extreme limit of our capacity.

Of 249 patients who remained over 90 days, the average term of residence was 243 days, or eight months. Besides the latter, there were 26 convalescent patients who remained an average of 98 days.

Two hundred and one new patients were examined at the Sanatorium and four were re-examined.

Patients treated and discharged were classified as follows:

	Cases	Per cent
Not classified	4	1.33
Non-tuberculous	16	5.33
Suspected tuberculosis	18	6.00
Non-pulmonary tuberculosis	1	.33
Apparently arrested (formerly "Apparently cured")	77	25.67
Quiescent (formerly "Arrested")	111	37.00
Disease improved	31	10.33
Disease unimproved	40	13.34
Died	2	.67
	<hr/>	<hr/>
	300	100.00
Ex-patients (convalescents, no detailed report)	26	
	<hr/>	
	326	

Twenty-two patients, including one woman, had served in the World War.

The average number of patients in residence during the year was 181, of whom 15 were doubled in patients' rooms.

Medical Staff. The physicians who assisted Dr. Heise during 1927-28 were Drs. A. G. Hahn, Thomas L. Brennan, John Barnwell, Paul E. Adolph, and Paul A. Gleim, four of whom served as clinical fellows of the Trudeau Foundation. Drs. Brennan, Barnwell and Adolph have gone elsewhere in restored health and Drs. Alan R. Anderson and Joseph T. Eagan have joined the staff. Dr. Garrett R. Miller received a fellowship for x-ray study. Six voluntary assistants, who were also patients gave help with the records and also in the teaching of nurses.

Gift of a New Electrocardiograph. An unusually valuable gift was received from Mr. Jesse I. Straus of New York, through Dr. Robert L. Levy, in the form of an electrocardiograph apparatus. This instrument will be of very great value in cases of heart disease and for research.

Mellon Library. This branch of our institution owes much to Mrs. Lawrason Brown for her constant interest, and many patrons have been adding books under her influence. Mr. William G. Illinger has served as Librarian and he reports a very considerably increased circulation of books. There were 9332 volumes issued to patients, and 304 books donated or purchased from money received for the purpose. By the very generous bequest of Mrs. Charles H. Mellon the institution received \$10,000 for an endowment fund for the maintenance of the Library, which is very welcome.

The Medical Library. The total bound volumes now number 4301, besides 4600 pamphlets and reprints. There are 500 volumes in the research laboratory and 179 in the x-ray laboratory, besides many reprints. Ninety periodicals are taken regularly, covering all branches of tuberculosis and general medicine.

Miss Margaret Hort is the librarian and has brought the catalogue up to date in a most satisfactory way. The Misses Corinne Corbett and Margaret Keating assisted at various times, and the Misses M. Bustin, V. Jones, J. D. Cochlin, O. Huench and J. Gibbons, and Mr. A. Mackenzie have contributed voluntary service. The stack rooms are already filled and further space will be required soon.

D. Ogden Mills Training School for Nurses. We are glad to report the continued success of this branch of the Sanatorium but

regret to announce the resignation of the superintendent, Miss Amber-son, who left July 1st to pursue postgraduate study. Fortunately Miss Sawtell, the assistant superintendent, abundantly qualified by education and experience, was willing to take over the responsibility. We have also been fortunate in obtaining the services of Miss Bessie Tibbits of the Faxon Hospital, Utica, as instructor and assistant superintendent. Her long experience in teaching nurses and as one of our former patients makes her work of especial value.

Eight nurses were graduated this year, all of whom qualified for New York State registration. The graduating class was addressed by Miss Effie J. Taylor, superintendent of nurses at New Haven Hospital and professor of nursing at Yale School. There are 26 nurses enrolled at present in the Sanatorium, besides 9 affiliating elsewhere.

The favorable action taken by Mrs. Whitelaw Reid on the proposed new Nurses Home opens the way to begin building in 1929. This has brought much joy to the nurses and will complete our facilities for a training school of the first rank. We shall have further cause for gratitude to Mrs. Reid for this gift. We make grateful acknowledgement to all our head nurses and pupils for the high quality of their service. The voluntary service given by the resident staff and village physicians, Drs. Francis B. Trudeau, Edward S. Welles, John N. Hayes and Leroy U. Gardner, as instructors is fully appreciated. Others who gave instruction were Drs. G. R. Miller, Bowen and Blalock.

Report on Graduates. Of 87 graduates, 84 have been heard from. Thirty-five are engaged in tuberculosis nursing, 6 in public health fields, 13 in general nursing, medical, surgical or obstetrical; 14 are affiliating, 9 resting, 17 at home of whom 14 are married and no longer nursing; 6 are married and still nursing, 4 have died, and 3 not reported.

The X-ray Department. An increase of 10 per cent in the examinations for 1928 is reported by Mr. Sampson, the roentgenologist (from 7000 to 7800), 24,000 films having been used. The staff numbers 10, all ex-patients, and special students are frequently taken on for short periods. A storehouse outside danger from fire was constructed for old films and operating equipment has been augmented by new apparatus.

The x-ray examination of Saranac Lake school children was repeated this year, and was again aided by an appropriation of \$500 from the Metropolitan Life Insurance Company.

Research and Clinical Laboratory. The enthusiasm and ingenuity of Dr. Petroff have continued to bear fruit in original investigations. A special field of study last year was on the bacteriology and virulence of the tubercle bacillus, a full account of which will be found in the medical report. With the aid of Mr. Cooper, chemical analyses are made hand in hand with cultures and animal inoculations. Large numbers of guinea-pigs are employed and the full capacity of the new animal house is utilized. Dr. Moti Malkani, a research fellow, completed a year in residence, and Dr. Arnold Branch, research pathologist, resigned to take up new work at Harvard. Mr. William Steenken, Jr., Miss Marjorie Smith, and Miss Rose Dersch continue as assistants. Dr. Marion B. Sherwood has been appointed research bacteriologist and Miss Lillian Downing assistant.

Dr. F. B. Jennings resumed his work in the summer, especially on the study of streptococci and pneumococci, often serious complications of tuberculosis.

Gifts have been received of valuable apparatus from Mr. Lewis S. Thompson and Dr. Jennings. Liberal support by two friends who prefer to remain anonymous has been supplemented by a very welcome pledge of support during the ensuing five years from the Lillia Babbitt Hyde Foundation of New York. This is to be an annual donation of \$10,000 for research under the direction of Dr. Petroff. The Trustees have warmly appreciated this help and its potential value to the science of tuberculosis. Dr. Petroff was sent abroad to attend the International Union on Tuberculosis in Rome, and he also visited and lectured in Vienna, Paris, Edinburgh and London.

Saranac Laboratory. A decided impetus has been given to the work in this department during the year by additional gifts toward the maintenance of a chemist, technicians and a librarian-secretary. I wish to congratulate and thank Dr. Gardner, the director, and his colleagues who have been successful in securing substantial endowment pledges as well as annual donations for maintenance. The offer of an endowment of \$100,000 by Mr. Frank B. Black of Mansfield, Ohio, has been met by a similar pledge from the trustees of the Milbank Memorial Fund. Sums of \$20,000 a year for five years are

to be added to the Trudeau Foundation capital by each donor. Besides these pledges, others to the amount of \$12,000 have been received, chiefly through the efforts of Dr. H. M. Kinghorn, to whom we owe a full meed of praise for his earnest enthusiasm for this object. Through Dr. Kinghorn also an annual donation of \$5,000 for three years was pledged by Mr. John D. Rockefeller, Jr., whose wide range of benefactions to science are so much appreciated. We sincerely thank Mr. Rockefeller for such vitally important aid, which enabled the laboratory to add the needed chemist and librarian at once. Other gifts for current expenses of the laboratory have been obtained by the committee of physicians, and Dr. Harold H. Brittingham of Cleveland, Ohio, donated apparatus to the value of \$300.

The study of dust and tuberculosis is being continued into new fields by the enlarged staff, and during the coming year the work will be aided by an appropriation of \$2500 by the U. S. Public Health Service. This is in the interest of the industrial investigations where the pathological aspect requires the special knowledge possessed by Dr. Gardner, who will direct the study. New members of the staff are Donald E. Cummings, chemist; Nikander Strelsky, technician; and Katherine Anderson, librarian-secretary.

Five voluntary workers were engaged in the Saranac Laboratory. We are especially indebted to Dr. and Mrs. Meyer Fleischer of St. Louis and to Dr. Theodore Dayton of Boston for their valuable assistance.

The John Black Room. The John Black Memorial Room was dedicated May 19th and presented to the Saranac Laboratory by Mrs. Frank B. Black in person, in the presence of physicians and invited guests. Dr. Miller as president responded for the Sanatorium. This beautiful meeting place serves admirably for lectures and was in daily use for the Trudeau School. It also houses the very complete research library of the laboratory. Photographs of the room appear in the front pages. Tablet chairs for students besides other chairs and furnishings were presented with the room, as well as an oil painting of John Black. A large number of folding chairs were given by Dr. Francis B. Trudeau, to whom we are indebted for the additional seats.

Scholfield Memorial Work Shop. The increased use of this department by the patients is significant of the skill and interest of the staff

of teachers with Miss Alma Pierce as director, Misses Lillian Hunt, Elizabeth Schiefer, Nielson Knox and Mrs. Covalenco. New crafts are taken up from time to time to vary the work. Leather and silver work have been most popular. Recently batik and gesso have been started. The teaching is carried daily to the infirmaries, where light crafts are permitted the bed patients. The list of voluntary helpers in this department is long. We would especially commend the Misses Carola Goerner, Sally Mitchell, Mildred Horr, Mrs. Campbell Berry, and Messrs. Michael Lassa and James McCue. Cash and supplies have been donated by many others, especially by Mrs. Walter B. James, Mr. William W. Oliver and the Messrs. William Erdey and Michael Goldberg. The continued generous support of Mrs. Meredith Hare is acknowledged with gratitude.

Statistical Department. Mr. Hennigar reports 4775 known living patients, and 2950 dead or untraced, a total of 7725 to the end of September, 1928. Assisting him in the record room is Miss Elizabeth Madlinger, succeeding Mr. R. M. Remsen. Voluntary workers to whom thanks are due were the Messrs. Telemosse, Clancy, Crothers, Bernstein and Freedman and the Misses Kutner, Haynes, Holmes, Stateman and Duncan, and Mrs. Saperstein and Mrs. Terrill. The space allotted for medical records is already filled, since the number increases yearly.

Baker Memorial Chapel. The regular services were held and the twelfth Trudeau Memorial address was given as usual. The latter was distinguished by the presence of Bishop John T. Dallas of the Episcopal Diocese of New Hampshire, who effectively interpreted the life of Dr. Trudeau. The ministers who have faithfully served during the year are the Rev. Father O'Connell, Rev. Elmer P. Miller, Rev. John L. Cole, and Rev. Hiram W. Lyon of Saranac Lake. In addition were the Rt. Rev. S. B. Booth, D. D., Bishop of Vermont; Rev. Roy B. Chamberlain, Chaplain of Dartmouth College, Rev. Mr. Zaph of Schenectady, Rev. Father Huntington of the Holy Cross Brotherhood, and Rev. Raymond A. Kurtz of Buffalo. To all we are much obligated. The choir of St. Luke's Church, Mr. Livingston Chapman, leader, and Miss Caroline Manning, organist, contributed much to the Easter Service. We also thank Miss Louise Leonard and members of the Methodist and Episcopal choirs for help in other services. It is interesting to add that a microphone receiver transmits

the services to bed patients. Our excellent organist, Mr. Hennigar, has arranged for choir singing when possible by the patients, who are naturally limited in the use of their voices.

Entertainments. It would be difficult to chronicle all the activities that might be classed under the head of entertainment. Music and concerts were the principal enjoyments. The Redpath Singers, the Boston Symphony Orchestra group contributed by Lake Placid Club under the direction of Mr. Julius Theodorowicz; the Stevens House Orchestra, Mr. Jacques George, leader, through the courtesy of Mrs. George Stevens, and likewise the Grand View Orchestra through the courtesy of Mr. Ruckeyser and Dr. Lichtman, all gave their services freely and we duly thank them. A special impromptu concert was given by Miss Leslie Frick, contralto, and Miss Edith Dineen, pianist, through the kindness of Mrs. Henry A. Colgate, their hostess. The annual concert by the Riverdale School Glee Club, Mr. Frank S. Hackett, headmaster, was also a pleasant feature. A reception and musicale was given by the patients to Dr. and Mrs. Heise, violinist Mrs. Harold Johnson, with Miss Stella Paul at the piano and Mr. Livingston Chapman, baritone. The plan was arranged by patients in the old Lea cottage and an address by Dr. Bethune on the possibilities of a future "Trudeau University" was a novel feature. A lecture on "Mind and Body" by Dr. James J. Walsh was also thoroughly enjoyed as was his generosity in the previous year. We were also favored by a talk on "Broken Bits of China" by former Chaplain Dougherty of the U. S. Army.

Attention is called to the increased need for a recreation hall as the number of patients is greater. It is especially needed since the fire insurance rules forbid the further use of standard moving pictures in the parlor. Moreover, the crowding of seats in the present reception room renders ventilation difficult.

Thursday Evening Club. Not only in being the sponsor for all entertainments, the Club continues its efforts to keep the friendly and helpful spirit of the patients alive. A contribution of \$25 was made to the Free Bed Fund, besides other gifts for entertainment. The holiday exercises are always occasions for the display of the members' talents.

Trudeau School of Tuberculosis. The fourteenth session was attended by a distinctly younger group of physicians than ever before.

There were 26 enrolled of whom 21 attended the full course. Twelve had had some personal or family experience with the disease. The usual number of visiting physicians under treatment availed themselves of the lecture course and the new John Black Memorial lecture room was often filled. Six scholarships were granted and the custom of contributing to one for the succeeding year was kept up by the class in a generous way. Fifteen states, Porto Rico, Cuba and China were represented on the roster. Fifteen physicians are enrolled for 1929.

The following lecturers favored us during the session: Dr. Allen K. Krause, Associate Professor of Medicine and Director Kenneth Dows Fund, John Hopkins School of Medicine, "Epidemiology and Social Importance of Tuberculosis;" Dr. J. Burns Amberson, Superintendent of Loomis Sanatorium, "A Consideration of the Pathological Anatomy of Pulmonary Tuberculous Lesions in Relation to Prognosis and Treatment;" Dr. Clarence L. Hyde, Superintendent of Springfield Lake Sanatorium, "Solar Therapy versus Artificial Light;" Dr. Roger S. Morris, Professor of Medicine, University of Cincinnati College of Medicine, "Cases of Pericarditis with Effusion;" Dr. George Miller MacKee, Professor of Dermatology and Syphilology, New York Postgraduate Medical School, "Tuberculosis of the Skin;" Dr. Lewis A. Conner, Professor of Medicine, Cornell University Medical College, "The Symptomatology and Diagnosis of Pulmonary Embolism and Infarction;" Dr. Henry D. Chadwick, Superintendent of Westfield State Sanatorium, "The Diagnosis and Treatment of Juvenile Tuberculosis.

That the school has fulfilled its purpose and met a need has been well demonstrated. The changes of methods have brought out new possibilities for the better instruction of graduate students and we believe the teachers have kept pace with the newer knowledge in this specialty. By readjusting our financial resources we are able to continue for the next few years at least.

Dental Department. Dr. Joseph L. Carr was absent for ten weeks but has been very active for the past nine months, as shown by his report. We deem ourselves fortunate in having the benefit of his skill and unselfish service.

Trudeau Foundation. The Publications during the year 1927 numbered 19, but little has appeared in 1928 owing to the unfinished

nature of investigations in progress. There were 24 patients or ex-patients and 6 others supported wholly or in part by the Foundation. Eight clinical and 1 research fellowships were awarded, besides 6 summer student interns who were given two months' training. The good influence of this plan is very striking, for the students return to their college work with exceptional knowledge of tuberculosis.

Donations for special research were \$24,000 from two anonymous friends, \$10,000 from the Lillia Babbitt Hyde Foundation, and \$5,000 from Mr. John D. Rockefeller, Jr. Besides these special funds, \$3,500 was given for current expenses. Additions to the Foundation capital amounting to \$3,634.41, were also received for the support of the Saranac Laboratory.

Besides the fellowships and research work, the Foundation also supports the Medical Library, the Statistical Department, the Trudeau School of Tuberculosis, and bears some of the expense of the Medical Department of the Sanatorium.

Immediate Needs. These are few, but pressing, as follows:

Snow plow and tractor	\$2,000
Cottage for assistant physician	15,000 to 20,000
Amusement pavilion	50,000 to 75,000

EDWARD R. BALDWIN, M.D.,
Vice-president and Chairman.

NECROLOGY

MRS. MARY M. EMERY, of Cincinnati, donor of the Medical Pavilion, died October 12th, 1927.

MR. CHARLES M. LEA of Philadelphia, Trustee and Treasurer of the Free Bed Fund, died November 5th, 1927.

MR. CHARLES H. LUDINGTON of Philadelphia, donor of the Ludington Infirmary, died November 13th, 1927.

MRS. ALBERT J. MILBANK of New York, patron of the Sanatorium from its foundation, died March, 1928.

MRS. LORAIN W. MELLON of Morristown, N. J., donor of the Mellon Library, died July 13th, 1928.

PER CAPITA COSTS			
The total Sanatorium operating income for the year 1928 was \$311,307.45, against total operating expenses of \$359,162.89. The Superintendent's revenue over the same period was \$242,860.07 as against running expenses of \$302,181.81; resulting in a deficit of \$59,321.74, which was offset by appropriations from the Banker's Trust Company amounting to \$83,950.11. The Superintendent's revenue equals 80 per cent of the running expenses. The average weekly per capita cost, or the cost of taking care of one patient one week was \$24.39. The average amount paid by each patient was \$19.22 and the average weekly deficit per patient was \$5.17.			
The distribution of the average weekly cost per patient was as follows:			
Administrative Expense	.	\$1 13	4.6 per cent
Housing and Feeding	.	13 55	55.6 per cent
Professional Care of Patients:			
Medical	.		1 07
Nursing	.		8 40
Dental	.		0 24
		9 71	39.8 per cent
		<u>\$24 39</u>	

The average daily census was 231 and the total number of hospital days was 84,504. The average raw food cost per meal was \$0.2718 and the total number of meals served was 366,843.

MEMORIAL AND ENDOWED FREE BEDS

The sum of five hundred dollars (\$500.00) will establish a Free Bed for any period of six months' treatment, as a memorial if desired; or

An Endowed Free Bed may be established in perpetuity to be occupied for such number of hospital days as shall be covered by the income from the endowment given for the purpose.

Such gifts to be named by the donor, and the applicants for the privileges to be subject to the same requirements in the entrance examination, rates for board, and all other rules and regulations existing at the time for patients of the Sanatorium.

FORM OF BEQUEST

I give and bequeath to "THE TRUDEAU SANATORIUM" of Essex County, State of New York, incorporated under the laws of the said State of New York the 4th day of March, 1889, the sum of dollars: To have and possess the same unto the said "Trudeau Sanatorium," its successors or assigns, to the uses, disposition and benefits thereof forever.

NOTE. — If the bequest is intended for the research and teaching departments the form should be amended by inserting "The Edward L. Trudeau Foundation of the " before the words "Trudeau Sanatorium" where they occur in the above.

FORM OF DEVISE

I give and devise to "THE TRUDEAU SANATORIUM" of Essex County, State of New York, incorporated under the laws of the said State of New York the 4th day of March, 1889, all that certain piece or parcel of land (with the buildings thereon erected), situated, lying and being, etc. (here describe property): To have and to hold the same unto the said "TRUDEAU SANATORIUM," its successors or assigns, to its own use and behoof in fee simple absolute.
